---

### RESEARCH INTERESTS

Macroecology / Global Changes / Multiple facets of biodiversity / Vulnerability assessment / Conservation Biology / Community Ecology / Biogeography

---

### EDUCATION

2017 – 2019	PhD in biology, Doctoral School n°567 Plant Sciences: from genes to ecosystems University of Paris Saclay, Orsay, France
2010 – 2012	MSc in ecology, biodiversity and evolution, specialized in conservation biology University of Paris Sud, Orsay, France
2007 – 2010	BSc in ecology University of Paris Sud, Orsay, France

---

### PROFESSIONAL EXPERIENCE

Nov. 2023 – present	<b>Postdoctoral researcher</b> at Physical and Environmental Geography unit (UMR 6042), Clermont-Ferrand (France). Supervised by Anne Bonis, Jean-Marc Paillisson, and Benjamin Bergerot. <i>Effects of environmental conditions on the food web structure in a eutrophic agricultural marshland (Marais poitevin).</i>
Mar. 2020 – Oct. 2023 (44 months)	<b>Postdoctoral researcher</b> at Risks, ECO-systems, Vulnerability, Environment, Resilience unit (UMR RECOVER), Aix-en-Provence (France). Supervised by Arnaud Sentis and Victor Frossard. <i>Using food web structure as a functional indicator of climate change.</i>
Jan. 2017 – Dec. 2019 (36 months)	<b>PhD fellow</b> at the Ecology, Systematic, Evolution unit (UMR 8079), Orsay. <i>Insular endemic biodiversity in the face of global change.</i> Ph.D. publicly defended the 10 <sup>th</sup> of December, 2019.  <i>Examination board:</i> <i>Pr. P. Leadley, Université Paris-Saclay, ESE – UMR 8079, Orsay, France (President)</i> <i>Dr. V. Devictor, CNRS, ISEM – UMR 5554, Montpellier, France (Referee)</i> <i>Dr. A.S.L. Rodrigues, CNRS, CEFE – UMR 5175, Montpellier, France (Referee)</i> <i>Dr. F. Rigal, Université de Pau et des Pays de l'Adour, IPREM – UMR 5254, Pau, France (Examiner)</i> <i>Pr. D. Schmeller, Université Toulouse III Paul Sabatier, ECOLAB – UMR 5245, Toulouse, France (Examiner)</i> <i>Dr. C. Bellard, CNRS, ESE – UMR 8079, Orsay, France (Advisor)</i> <i>Dr. F. Courchamp, CNRS, ESE – UMR 8079, Orsay, France (Co-advisor)</i>
Oct. 2016 – Dec. 2016 Apr. 2016 – Jul. 2016 (7 months)	<b>Research assistant</b> at the Ecology, Systematic, Evolution unit (UMR 8079), Orsay (France). Supervised by Céline Bellard and Franck Courchamp. <i>Understanding island diversity in the face of global change (designing the doctoral project).</i>
Oct. 2014 – Mar. 2016 (18 months)	<b>Civic service</b> for <a href="#">SUBANTECO scientific program</a> at Kerguelen archipelago (French Southern Territory). Supervised by David Renault.
Sept. – Sept. 2014 (13 months)	<b>Research assistant</b> at the Ecology, Systematic, Evolution unit (UMR 8079), Orsay (France). Supervised by Céline Bellard and Franck Courchamp. <i>Combined impacts of global changes on biodiversity across the United States.</i>
Oct. 2012 – Jun. 2013 (9 months)	<b>Internship</b> at the Ecology, Systematic, Evolution unit (UMR 8079), Orsay (France). Supervised by Céline Bellard and Franck Courchamp. <i>Population dynamics and conservation of the Tibetan antelope (<i>Pantholops hodgsonii</i>).</i>
Feb. 2012 – Jul. 2012 (6 months)	<b>Internship</b> at the Ecology, Systematic, Evolution unit (UMR 8079), Orsay (France). Supervised by Céline Bellard and Franck Courchamp. <i>Climate change on global biodiversity hotspots.</i>
Apr. 2011 – Jun. 2011 (3 months)	<b>Internship</b> at the Station for Theoretical and Experimental Ecology (UAR 2029), Moulis (France). Supervised by Dirk Schmeller. <i>Effects of aquatic environment and vegetation on the survival of zoospores of the chytrid fungus (<i>Batrachochytrium dendrobatidis</i>).</i>

---

---

Jul. 2010 – Aug. 2010 **Internship** at the Centre of Biological Studies Chizé (UMR 7372), Chizé (France).  
 (2 months) Supervised by Olivier Lourdaïs  
*Climatic adaptations of wetland invertebrates: Raft spider (Dolomedes fimbriatus).*

---

## RESEARCH INDICATORS

- **20** publications in peer-reviewed scientific journals (7 as lead author, 1 as last author). These include publications in high-impact journals: *Nature Communications* (1), *Global Change biology* (4), *Current Biology* (1), *Ecology Letters* (1).
  - **1269** citations (H-index: 13)
  - **11** communications at international and national conferences, workshops and seminars (9 oral presentations and 2 poster presentations)
  - Subject Matter Editor of *Ecological Monographs*. Guest Editor for *Ecology*. Scientific reviewer for 18 journals.
- 

## PUBLICATIONS

### Preprints

Bellard C., Marino C., Butt N., Fernández-Palacios J.M., Rigal F., Robuchon M., Lenoir J., Irl S., Benítez-López A., Capdevila P., Zhu G., Caetano G., Denelle P., Philippe-Lesaffre M., Schipper A.M., Foden W., Kissling W.D. & **Leclerc C.** A framework to quantify the vulnerability of insular biota to global change. Submitted to *PCI Ecology*. <https://hal.science/hal-04550966/>

### Peer-reviewed publications

- Bonnafe W.\*, Danet A.\*, **Leclerc C.\***, Frossard V., Edeline E. & Sentis A. (Accepted). The interaction between warming and enrichment accelerates food-web simplification in freshwater systems. *Ecology Letters*. (\*equal contribution).
- Bazin S., Diouloufet V., Molina A., Peroux T., Lassus R., Montoya J.M., Blanchet S., Edeline E., Jacquet S., Rasconi S., Fayolle S., Campana M., Zambeaux T., **Leclerc C.**, Morla J., Daufresne M. & Sentis A. (Accepted). Direct effect of artificial warming on communities is stronger than its indirect effect through body mass reduction. *Oikos*.
- Leclerc C.**, Reynaud N., Danis P.-A., Moatar F., Daufresne M., Argillier C., Usseglio-Polatera P., Verneaux V., Dedieu N., Frossard V. & Sentis A. (2023). Temperature, productivity and habitat characteristics collectively drive lake food web structure. *Global Change Biology*, 29 (9): 2450-2465. doi: [10.1111/gcb.16642](https://doi.org/10.1111/gcb.16642)
- Renault D., **Leclerc C.**, Collet M.A., Boutet A., Hotte H., Colinet H., Chown S.L. & Convey P. (2022). The rising threat of climate change for arthropods from Earth's cold regions: Taxonomic rather than native status drives species sensitivity. *Global Change Biology*, 28 (20): 5914-5927. doi: [10.1111/gcb.16338](https://doi.org/10.1111/gcb.16338)
- Leclerc C.**, Magneville C. & Bellard C. (2022). Conservation hotspots of insular endemic mammalian diversity at risk of extinction across a multidimensional approach. *Diversity and Distributions*, 28 (12): 2754-2764. doi: [10.1111/ddi.13441](https://doi.org/10.1111/ddi.13441) (Special Issue – Global hotspot of Biodiversity and Conservation)
- Marino C., **Leclerc C.** & Bellard C. (2022). Profiling insular vertebrates prone to biological invasions: what makes them vulnerable?. *Global Change Biology*, 28 (3): 1077-1090. doi: [10.1111/gcb.15941](https://doi.org/10.1111/gcb.15941)
- Bellard C., Bernery C. & **Leclerc C.** (2021). Looming extinctions due to invasive species: Irreversible loss of ecological strategy and evolutionary history. *Global Change Biology*, 27 (20): 4967-4979. doi: [10.1111/gcb.15771](https://doi.org/10.1111/gcb.15771)
- Leclerc C.**, Courchamp F. & Bellard C. (2020). Future climate change vulnerability of endemic island mammals. *Nature Communications*, 11: 4943. doi: [10.1038/s41467-020-18740-x](https://doi.org/10.1038/s41467-020-18740-x)
- Leclerc C.**, Villéger S., Marino C. & Bellard C. (2020). Global changes threaten functional and taxonomic diversity of insular species worldwide. *Diversity and Distribution*, 26 (4): 402-414. doi: [10.1111/ddi.13024](https://doi.org/10.1111/ddi.13024) (selected as [Editor's choice](#))

## FURTHER QUALIFICATIONS

### Languages:

French (mother tongue), English (common and scientific)

### Data management:

Dataset cleaning, taxonomic cleaning and homogenization, Global data collection and synthesis, Database matching

### Data types:

Environmental (physical, chemical, threats) and Biological data (taxonomic, functional, phylogenetic, food web), Taxonomic data (masterlist, master taxonomy, synonyms list, fuzzy matching), Geospatial data (shapefiles, rasters, polygons, grids)

### Statistical modeling:

Linear models, Mixed effect models, Generalized linear models, Generalized additive models, Structural equation modeling, Principal component analysis

### Computer languages & Software:

R, PostgreSQL, QGIS, Gephi, Inkscape

### Experimental and fieldwork skills:

Capture-mark-recapture (amphibians), Points transect method (plants), Field experiences in mountain area (French Pyrenees) and subantarctic area (Kerguelen archipelagos)

## MENTORING AND TEACHING ACTIVITIES

### Supervising:

- 2024 (6 months) Antoine Perricher (Master student 2<sup>nd</sup> year – Aix-Marseille Université) – Spatial structure of ecological networks in aquatic ecosystems. Co-supervision (10%) with Arnaud Sentis and Nathalie Reynaud.
- 2019 (6 months) Camille Magneville (Master student 2<sup>nd</sup> year – Université de Rennes 1 / Agrocampus Ouest) – Assessment of multiple dimensions of insular biodiversity to establish conservation priorities. Co-supervision (50%) with Céline Bellard.

## RESPONSIBILITIES AND OTHER INVOLVEMENTS

### Administrative and associative responsibilities:

- Mar. 2023 – Oct. 2023 (10 months) Representative of non-permanents (PhD student, Postdoctoral researcher, contract worker) at the Unit Council of the Risks, ECO-systems, Vulnerability, Environment, Resilience unit (Aix-en-Provence, France).
- Mar. 2018 – Mar. 2019 (12 months) Representative of non-permanents (PhD student, Postdoctoral researcher, contract worker) at the Unit Council of the Ecology, Systematic, Evolution unit (Orsay, France).

### Reviewer for peer-reviewed journals:

*Biodiversity and Conservation, Biological Invasions, Climatic Change, Conservation Biology, Diversity and Distributions, Ecology Letters, Forests, GeoResJ, Global Change Biology, Journal of Applied Ecology, Journal of Biogeography, Mammalian Biology, Nature Climate Change, PCI Ecology, Perspectives in Ecology and Conservation, PLoS ONE, Royal Society Open Science, Scientific Reports*

### Editorial board activities for peer-reviewed journals:

- 2022 – present [Subject Matter Editor of Ecological Monographs](#)

### Membership in scientific societies:

- 2017 – present French Society of Ecology and Evolution ([SFE<sup>2</sup>](#))
- 2019 – present International Biogeography Society ([IBS](#))

## AWARDS, GRANTS & FELLOWSHIPS

### Research funding:

- 2023–2026 (36 months) [RIVAGE: Revisit Island Vulnerability during the Anthropocene Geologic Era](#)  
Funds: FRB-CESAB  
PIs: Céline Bellard & Ana Benítez López  
*I co-designed the concept of the proposal, co-wrote the proposal and I have been data manager and co-leader of WP1.*
- 2021–2023 (34 months) RETRO: Using food web structure as a functional indicator of climate change  
Funds: Pole Research & Development on Lacustrine Ecosystems (ECLA) – OFB/INRAE/USMB.  
PIs: Arnaud Sentis & Victor Frossard  
*I co-designed the concept of the proposal, co-wrote the proposal and get the post-doctoral fellowship associated with this project.*
-

---

Awards & others:

- 2019 Student Travel Grant – 9<sup>th</sup> Biennial Conference International Biogeography, Málaga, Spain.
- 2017 Best Poster Presentation – 4<sup>th</sup> Young Natural History scientists' Meeting, Paris, France.  
(<https://www.sfecologie.org/2017/03/11/laureats-sfe-jeunes-chercheurs-sciences-naturelles/>)
